

# Stained Glass News

## Project Pattern

This simple pattern has a little Art Deco influence as well as a touch of the Southwest. You are obviously able to use just about any glass colors you'd like.

The 3" centerpiece also gives you a lot of freedom. You can cut a circle of spectacular looking glass, use a 3" circle bevel (maybe even etch a design on the bevel), or create a little fused glass centerpiece that would be very attention getting. Be creative.

### Materials:

< 1/2 sq.ft. of glass each for A, B & C  
see notes at left for ideas for centerpiece
