

Stained Glass News

project pattern #70

Festive Wreath

Materials

about 2 square feet of glass
3-20 medium glass nuggets

Finished size is approximately
16" in diameter.

Cut 6 of each leaf.
You can use various shades
of green or fall colors.

Flatten and tack solder the
leaves into six 3-leaf "units."

Then assemble and
solder the 6 units into
the finished wreath as
shown below.

Solder wire around the inside
and outside edges for strength
add some glass nuggets in a
random pattern if you like.
