Spectrum Glass Color Suggestions

- | | |
|------------|-----------------------|
| A. 200SF | Opal White |
| B. 121SF | Light Green Cathedral |
| C. 151SF | Cherry Red Cathedral |
| D. 543-2SF | Grape Cathedral |
| E. 161SF | Yellow Cathedral |
| F. 523-2SF | Teal Green Cathedral |

Cut one square from 200SF Opal White to use as base. (Size = perimeter of pattern.) Build plaid design on top of base. (Strips are 1/2" wide.) Fuse according to your established kiln procedures or refer to System 96® Firing and Annealing Guidelines.* After fusing, drill hole for clock movement.

*Firing and Annealing Guides are readily available. Please see our Hot Glass Alternative literature (ask your supplier or call us for a copy) or visit the Fusing Section of our Web site (www.spectrumglass.com).
